FRUIT JAR DEMAND.

JUST NOW AHEAD OF THE SUPPLY.

The Prospect of a Heavy Yield of Fruit Makes Business for the Glass Houses.

The Central Company's Brilliant Works to be used to Make Jars.

The demand for glass fruit jars this year is almost unprecedented. Last year was so unusually good a fruit year that those factories engaged in making jars were rushed to supply the demand. The common theory is that two good fruit seasons never come in succession, so that this year only a very ordinary trade in jars was expected. Jobbers did not lay in extensive stocks, and the factories generally did not make special efforts to more than fill the orders looked. To everybody's surprise the production of fruit this year, from early strawberries to late quinces, now promises to be much larger than last year's. This has led to an unexpected and sudden stimulus in the trade in fruit jars, which is, under the most ordinary circumstances, of an extent to surprise any person who has never received an idea of the number of jars that each year Millions of them are made, and yet the demand never seems to be affected by the number previously sold. The question, What becomes of all the glass fruit jars? is a difficult one to answer as the old query, Where do all the pigs go?

The factories already running on jars are enjoying a veritable bonanza this spring. The Bridgeport factory, which has been exclusively turning out about seventy gross per day. Recent at the excess of the demand over the supply has become a serious matter, and the Central Glass Company, of this city, has about 100 jars at its factory up at Brilliant.

The factory, one of the completest in the country, has been running on colored glass and other fancy goods, but was just down some time ago. It would require no change or preparation for the new line of work except to reset the pots. A number of concerns having the molds are eager to furnish them, and the product of the twelve-pot furnace, which would be from one hundred and twenty-five to one hundred and forty gross of glass jars per day, could be sold as fast as produced to firms having the trade already worked up. Only the bodies will be made for the Central Company, they go into the business, as it is now about decided that they will. The tops will be put on by the purchasers.

President Scott and other gentlemen interested in the company went up to Brilliant yesterday and the day before. Their works there have the advantage of its own gas well, which furnishes the fuel at a pressure of about 25 pounds.

THE LYCEUM LAST EVENING.

Another Enjoyable Evening at the Fourth Street Church.

The Lyceum last evening was one of the most delightful entertainments ever given in the city. Every part of it passed off pleasantly. The lecture was on the old Persian civilization, and the charm of the subject would have redeemed any lecture from dullness. No one can enter upon an earnest study of these old-time civilizations without awaking genuine enthusiasm. The interest and enjoyment increased with every addition of knowledge. The program which followed the lecture was connected with the writings of Mrs. Browning, and was as beautiful and pleasing as it was instructive. Mrs. George B. Caldwell favored the audience with a charming song, and a sweet and easy to which no words can do adequate justice. Mrs. Bonham read a most delightful paper on Mrs. Browning. No one could read with a new interest. Mrs. Browning's poems are so full of life and spirit, and so full of the poet's work. Mrs. Estlin's readings were very fine. She brought out all the wealth of thought and beauty in the selections from Mrs. Browning's poems. Of Prof. Schiller's reading it is hardly necessary to speak. The public know his rare power as a player, and the earnest recall showed how warmly the audience appreciated his work. The regular meeting of the Board of Directors of the Ohio River Railroad took place Thursday evening at the Stamm House. Messrs. B. W. Peterson, of Wheeling; S. Hall, of Wetzel; R. H. Brown, of Pleasant; R. S. Brown, of Jackson, and G. W. Thompson, D. R. Neal and R. D. Spilman, of Parkersburg; G. W. Thompson, of Parkersburg, Vice-President and Secretary. The construction of the extension to Huntington will be finished by October 1st. The road is making money and has all the freight it can handle. An order has been placed for four new locomotives and a large number of extra cars. About two extra freight trains run every day, and the traffic averages over fifty loads a day. The Ohio River road probably makes the best showing of any young railroad in the country, and the prospects are brilliant for its successful future.

West Liberty Commencement.

The programme of the commencement exercises to be held next week at the West Liberty Normal school is as follows: They will begin with the baccalaureate service, which is to be delivered Sunday afternoon at 2:30 o'clock by Rev. Thursday, 3:30 p. m., Alumni business meeting. Thursday, 8 p. m., Alumni performance. The valedictory will be by A. S. Biggs, of West Liberty.

Went up to get off his Chestnut.

The Mayor of this city went to Steubenville yesterday for the purpose, as he has been charged with the duty of "fixing the sights of a live town." The Herald notes the infliction in the following manner:

Hon. O. W. Senbright, Mayor of Wheeling, was the guest of Mayor Opperman this afternoon. Speaking of the sights of the Wheeling executive said it was gloomy now, but by morning he thought he would be bright. The crowd took cigars.

He Would Make a Good One.

Mr. T. M. McKelvey, formerly of this city, now a leading citizen of Belmont county, residing near St. Clairsville, is a candidate for the Republican ticket for member of the House of Representatives.

Mr. McKelvey is a public spirited citizen and well informed man, whose eminent qualifications for the position as well as his high character could not but make him a name source of great strength to the ticket.

The steamer Amos leaves Wheeling for Cincinnati every Thursday at 9 a. m., and will sell excursion tickets to parties of five or more. One week of pleasure, beautiful scenery and good music on the largest and fastest ferry boat that comes to Wheeling. For rates apply to Frank Loefer, Charles Muhleman, Wheeling, W. Va.

SUPREME COURT OF APPEALS.

A Number of Cases Submitted at Yesterday's Session.

The Supreme Court of Appeals met yesterday forenoon at 10 o'clock, with all the judges present. The sessions are held in the old building of the First Branch of Council, and it is expected that the term will last through the present month. The resignation of Chief Justice, who has removed to New York, was presented in writing yesterday, and Michael Edwards was elected to succeed him.

The following cases were submitted: John Robrecht vs. S. W. Wharton, appeal from Ohio county.

E. Marling vs. J. W. Robrecht, writ of error, from Ohio county.

Donald Franklin vs. T. M. Gehr, writ of error, from Marshall county.

Sweeney, Son & Co. et al., vs. Grape Creek, appeal from Ohio county.

J. B. Pyles vs. Riverside Furniture Co., appeal, from Ohio county.

G. & M. Korne vs. John Korne, appeal, from Ohio county.

D. W. C. Carroll vs. Exchange Bank, writ of error, from Ohio county.

The suit against the late Grape Sugar Company to secure the division of credit, was covered by deed of trust to the Ohio Valley Bank, among the creditors pro rata.

Adjourned till 10 A. M. to-day.

Circuit Court.

In the Circuit Court yesterday, the motion for a new trial in the case of Charles T. Bruce vs. Susan Cotts, was overruled, and a verdict given to the plaintiff for \$50.00.

In the case of D. B. Dwyer vs. the administrator of the Frank Booth estate, a motion for a new trial was overruled, and judgment rendered of \$1,500 and costs of the motion to the plaintiff.

The motion for a new trial in the case of Simpson & Garman vs. Harry Exley, was also overruled.

The case of G. O. Smith vs. the Pennsylvania Company, garnishee on a claim against the Pennsylvania Company, which was appealed from Justice Caldwell's court, presented an interesting question. A motion was made to dismiss because of lack of jurisdiction, the grounds being that J. M. Belliveau and John G. Tomlinson, on whom service was made, were not agents of the Pennsylvania Company. The motion was overruled, and judgment rendered in favor of Smith.

Land Lying Waste.

About eight miles below Ravenswood, on the Ohio River road, is a tract of land which is sure to be noticed by nearly every one who travels the road. The tract consists of 1,100 acres, and is a part of the original Washington tract, surveyed by Father George himself. With the exception of 100 acres, it is all covered with the original forest, and is a magnificent poplar and oak and ever green forest.
